Mission

Looking Back

REC Foundation Signature Events give students the opportunity to play at a “World Class” tournament that provides a special and unique team experience. Signature Events have a level of technical expertise, production value, and overall event quality that is above and beyond that of a standard tournament. The mission of these events is to provide more opportunities for teams that may or may not typically attend Event Region Championships or the VEX Robotics World Championship to experience an event of that level.

9 Seasons of Signature Events

Number of Signature Events

VEX ROBOTICS WORLD CHAMPIONSHIP

2024-2025

World Spots

✓ 192 VEX Robotics World Championship Spots

- 54 x VIQRC
- 120 x V5RC
- 18 x VURC

✓ Survey Data

- Capacity of 4,899 teams
- Motivation
 - Location (proximity to team)
 - Team experience
 - Level of competition
 - VEX Robotics World Championship spots

EVENT PARTNER SUMMIT 2024

Future of Signature Events Discussion

- Should we cap the number of Signature events?
- Should we rotate signature events by season?
- Should we reduce or remove VEX Worlds Qualification spots?
- Should hosting Regions give up ERC Spots?

What not to do in slide presentations...

1. Adding in your entire speech A Google Presentation should complement your speech—not retell it for you. Use your presentation to illustrate what you're saying. For example, you may use your presentation to supply meaningful and relevant images, statistics, or pulled quotes. Also, avoid filling your slides with blocks of text and impossible-to-see charts.

2. Don't Clutter Your Presentation with BLOCKS after BLOCKS of text. Condense your text and make it simple and concise. How long should you spend presenting a slide? Perhaps the best known and most commonly used method is the 10/20/30 rule by Guy Kawasaki. It specifies that ten slides be used in a 20-minute presentation. A font size of at least 30 should be used for text. This equals to about two minutes per slide – a standard rule for presentations.

3. Too many slides Use your own judgment and ask yourself the following questions to establish if you have the right number of slides. During rehearsal, are you: 1. Always frantically clicking through slides to meet a time limit? (If yes, you need fewer slides.) 2. Spending more than one minute per slide? (If yes, you need more slides or a shorter presentation.) Spend approximately one minute per slide.

4. Animations without purpose (do not have to use) Everything in your Google Presentation should have a purpose. Having a picture or a text box jump or dance maybe unnecessary. Ask yourself: “What is the purpose of this animation? What do I want to achieve?”

5. Clip art instead of relevant graphics or images While there is nothing wrong with clip art per se, it can convey an unprofessional presentation. There are better options to replace the use of clipart.

When keeping these 5 things out of your Google Presentation, you are on your way to delivering a professional and effective message.

Tips on closing a presentation:

Signature Events

We are a reliable nonprofit that offers educators and students unlimited STEM opportunities.

The Robotics Education & Competition (REC) Foundation's global mission is to provide every educator with competition, education, and workforce readiness programs to increase student engagement in science, technology, engineering, math, and computer science.
